

M.H. AMAAN AHMED

Associate Software Engineer

amaanhilmy8@gmail.com | +94 72 217 6329 | Colombo 06, Sri Lanka | linkedin.com/in/aman-ahmed-601124272 | github.com/amaan-ahmed

PROFESSIONAL SUMMARY

Results-driven Associate Software Engineer with expertise in full-stack development using Java Spring Boot, React, and Next.js. Batch topper of HNDIT 2021 with a perfect 4.0 GPA. Experienced in microservices architecture, RESTful API development, cloud deployment on AWS, and database management across relational and non-relational systems. Skilled in agile methodologies and delivering innovative, scalable, user-centric software solutions.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript, Python, PHP, C#

Backend Frameworks: Spring Boot, Flask, ASP.NET, Laravel, CodeIgniter

Frontend Technologies: React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Material-UI, MudBlazor

Databases: MySQL, PostgreSQL, MongoDB, Firebase, Microsoft SQL Server

Architecture & Design: Microservices Architecture, RESTful API, MVC Pattern

Cloud & DevOps: AWS (SQS, EC2), CI/CD Pipelines

Tools & Methodologies: Git, GitHub, Postman, Swagger, Jira, Navicat, Agile, Scrum, Test-Driven Development (TDD)

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Jan 2025 – Present

Techcess Business Solutions, Nugegoda, Sri Lanka

- Developed and maintained enterprise-grade applications using Java Spring Boot and microservices architecture.
- Designed and implemented RESTful APIs and integrated third-party services to extend platform functionality.
- Built responsive, accessible front-end applications using React.js, Next.js, Material-UI, and Tailwind CSS.
- Optimized database queries and managed data across MySQL, PostgreSQL, and MongoDB databases.
- Deployed and managed applications on AWS, utilizing Amazon SQS for reliable message queuing.
- Conducted code reviews, enforced best practices, and actively participated in agile ceremonies including sprint planning and retrospectives.

Software Engineer Intern

Jul 2024 – Jan 2025

Techcess Business Solutions, Nugegoda, Sri Lanka

- Contributed to the Zeta Plus SRP Project using Java Spring Boot and distributed microservices architecture.
- Developed and tested APIs using Postman; documented API specifications using Swagger.
- Implemented front-end features with React.js, TypeScript, and Bootstrap to deliver responsive UI components.
- Worked with relational and non-relational databases; utilized Git for version control and collaborative development.
- Participated in agile development processes and gained hands-on experience with AWS cloud services.

EDUCATION

Bachelor of Information Technology (Undergraduate)

Apr 2025 – Present

University of Moratuwa, Sri Lanka

Higher National Diploma in Information Technology (HNDIT)

Aug 2022 – Aug 2024

SLIATE, Kandy, Sri Lanka

GPA: 4.0/4.0 | Batch Topper | Coursework: Software Engineering, Database Management, Web Development

Advanced Level (A/L) – Commerce Stream

Completed Nov 2020

K/Madeena National School, Kandy

PROJECTS

Online Police Assistance System | *Java Spring Boot, React.js, Next.js*

Final Year Project | Full-Stack Developer

- Developed a secure, responsive web platform enabling citizens to submit complaints and police to manage cases online.
- Implemented authentication, role-based authorization, and a fully responsive UI using React.js and Next.js.

Zeta Plus – SRP Project | *Java Spring Boot, Microservices, AWS*

- Built an enterprise application using a distributed microservices architecture for high scalability and maintainability.
- Integrated AWS services including EC2 and SQS for cloud deployment and reliable inter-service messaging.

Zeta – SLSM (Student Lifecycle Management System) | *PHP CodeIgniter, MySQL*

- Developed a comprehensive student management system featuring role-based access control for administrators, faculty, and students.
- Designed normalized relational database schemas for efficient data storage and retrieval.

Kandy Rentals – Car Rental Management System | *ASP.NET MVC, Bootstrap, MySQL*

- Built a full-featured car rental platform with vehicle and customer CRUD operations, booking management, and payment processing.

Online Quiz Management System | *Python Flask*

- Developed a timer-based quiz platform with automatic scoring, user authentication, and session management.

CERTIFICATIONS

- Introduction to Android Mobile Application Development – Meta
- Web Design for Beginners – University of Moratuwa
- Python Programming – University of Moratuwa
- Python for Beginners – University of Moratuwa

LANGUAGES

English: Fluent

Tamil: Native

Sinhala: Fluent

PROFESSIONAL GOALS

- Advance expertise in Java, JavaScript frameworks, and cloud technologies including AWS.
- Contribute to open-source projects and collaborate with global development teams.
- Pursue AWS Solutions Architect and Spring Professional certifications.
- Lead development initiatives and mentor junior developers.
- Build innovative, scalable, and user-centric software solutions.
