

M.H. AMAAN AHMED

Associate Software Engineer

amaanhilmy8@gmail.com | +94 72 217 6329 | Colombo 06, Sri Lanka | [linkedin.com/in/aman-ahmed-601124272](https://www.linkedin.com/in/aman-ahmed-601124272) | <https://github.com/AmanAhmed12/>

PROFESSIONAL SUMMARY

Results-driven Associate Software Engineer specializing in full-stack development with Java Spring Boot, React, and Next.js. Gold Medalist and batch topper of SLIATE HNDIT 2021 with a 4.0 GPA and completed BIT Degree from University of Moratuwa. Experienced in building scalable applications using microservices, RESTful APIs, cloud technologies, Docker, CI/CD pipelines, and modern database solutions. Skilled in AWS, payment integrations, and AI-assisted development tools to deliver efficient, user-focused software solutions.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript, Python, PHP, C#

Backend Frameworks: Spring Boot, Flask, ASP.NET, Laravel, CodeIgniter

Frontend Technologies: React.js, Next.js, Angular, HTML5, CSS3, Bootstrap, Tailwind CSS, Material-UI, MudBlazor

Databases: MySQL, PostgreSQL, MongoDB, Firebase, Microsoft SQL Server, Neon, AWS RDS

Architecture & Design: Microservices Architecture, RESTful API, MVC Pattern

State Management: Redux

Cloud & DevOps: AWS (SQS, EC2, ECS, RDS S3), Docker, Kubernetes, Jenkins, CI/CD Pipelines

Storage & Media: Amazon S3, Cloudinary

Messaging & Event Streaming: Apache Kafka, Amazon SQS

Payment Integration: PayHere

AI Tools: Antigravity, Windsurf, Claude AI, ChatGPT, Gemini, Replit

Tools & Methodologies: Git, GitHub, Postman, Swagger, Jira, Navicat, Agile, Scrum, Test-Driven Development (TDD)

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Jan 2025 – Present

Techcess Business Solutions, Nugegoda, Sri Lanka

- Developed and maintained enterprise-grade applications using Java Spring Boot and microservices architecture.
- Designed and implemented RESTful APIs and integrated third-party services to extend platform functionality.
- Built responsive, accessible front-end applications using React.js, Next.js, Material-UI, and Tailwind CSS.
- Optimized database queries and managed data across MySQL, PostgreSQL, and MongoDB databases.
- Deployed and managed applications on AWS, utilizing Amazon SQS for reliable message queuing.
- Conducted code reviews, enforced best practices, and actively participated in agile ceremonies including sprint planning and retrospectives.
- Collaborated with cross-functional teams including UI/UX designers, QA engineers, and business analysts to deliver high-quality software solutions.
- Containerized applications using Docker and supported CI/CD deployment workflows to improve development efficiency.
- Implemented authentication, authorization, validation, and exception handling to enhance application security and reliability.
- Troubleshoot production issues, optimized application performance, and resolved bugs to ensure system stability.
- Participated in technical discussions, solution design, and feature estimation during project planning.
- Maintained technical documentation and API specifications to support development and client integration.

Software Engineer Intern

Jul 2024 – Jan 2025

Techcess Business Solutions, Nugegoda, Sri Lanka

- Contributed to the Zeta Plus SRP Project using Java Spring Boot and distributed microservices architecture.
- Developed and tested APIs using Postman; documented API specifications using Swagger.
- Implemented front-end features with React.js, TypeScript, and Bootstrap to deliver responsive UI components.
- Worked with relational and non-relational databases and Git for version control.
- Assisted in implementing new application features while maintaining existing modules and resolving reported defects.

- Collaborated with senior developers to understand software architecture, coding standards, and industry best practices.
- Performed database design, data validation, and SQL query optimization to improve application performance.
- Participated in code reviews and incorporated feedback to improve code quality and maintainability.
- Supported application deployment, testing, and debugging across development and staging environments.
- Worked with Jira to manage tasks, track progress, and collaborate effectively within the Scrum team.

EDUCATION

Bachelor of Information Technology

Apr 2025 – Jul 2026

University of Moratuwa, Sri Lanka

Higher National Diploma in Information Technology (HNDIT)

Aug 2022 – Aug 2024

SLIATE, Kandy, Sri Lanka - : GPA: 4.0/4.0 | Gold Medalist | Batch Topper

Advanced Level (A/L) – Commerce Stream

Completed Nov 2020

K/Madeena National School, Kandy

PROJECTS

Online Police Assistance System | Java Spring Boot, React.js, Next.js

Final Year Project | Full-Stack Developer

- Developed a secure, responsive web platform enabling citizens to submit complaints and police to manage cases online.
- Implemented authentication, role-based authorization, and a fully responsive UI using React.js and Next.js.

Zeta Plus – SRP Project | Java Spring Boot, Microservices, AWS, Docker, Jenkins, Kubernetes

- Built an enterprise application using a distributed microservices architecture for high scalability and maintainability.
- Integrated AWS services including EC2 and SQS for cloud deployment and reliable inter-service messaging.
- Containerized services with Docker and orchestrated deployments using Kubernetes, with Jenkins pipelines automating build and release.

HIS Website – School Website | Java Spring Boot, Angular

- Developed a modern, responsive school website frontend using Angular 21 and Tailwind CSS to deliver an optimized and highly interactive user experience.
- Implemented Angular Server-Side Rendering (SSR) to significantly boost initial page load speeds and improve Search Engine Optimization (SEO).

Zeta – SLSM (Student Lifecycle Management System) | PHP CodeIgniter, MySQL

- Developed a comprehensive student management system featuring role-based access control for administrators, faculty, and students.
- Designed normalized relational database schemas for efficient data storage and retrieval.

Kandy Rentals – Car Rental Management System | ASP.NET MVC, Bootstrap, MySQL

- Built a full-featured car rental platform with vehicle and customer CRUD operations, booking management, and payment processing.

Online Quiz Management System | Python Flask

- Developed a timer-based quiz platform with automatic scoring, user authentication, and session management.
